Summary

Having 10+ years of experience building websites and applications. In those years I've worked with a wide range of clients from small startups to large companies across Asia, Europe and America. Working experience on projects that range from CMS websites to SaaS Apps has given me a great insight into all aspects of a project.

I am a dedicated and self-motivated developer who loves coding, open source, and the web platform. I love what I do and take great pride in all of my work. I'm always looking for the next challenge to create something incredible.

Skills

JavaScript & TypeScript - ECMA5/6/7, JavaScript, Typescript, React Js, Next Js, Node Js, Docker, AWS, kubernetes Jenkins, jQuery, Express Js, webdriver.io, RXJS, Redux, Modern Modules pattern.
